

# WeeklyReport\_2018-07-23\_07-29\_E

---

work time:  $9 + 9 + 9 + 8 + 8 + 5 + 10 = 58$  I complete the test of DimensionReduction code this week and teach students in VIS school as the teaching assistant

## Progress

### 1 Regular

- write 5 ACM problems

I haven't do something about deep learning and kaggle. I think this week I am very lazy.

### 2 Project: DimensionReduction

- I modify the code of evaluation. fast 5 times!
- complete the test of DimensionReduction code

### 3 VIS teaching assistant

- listening to lessons in VIS school
- learn a little bit about d3

use d3 to write a model about our homework2

- teach students in VIS school
- give advice to feifeng students

I invites several students to our lab. Zexian and Many Seniors help me to introduce our projects.

---

## Recent perspective

Work	deadline	Tip
end DimensionReduction Paper	this week	some little thing
do Home Credit Default Risk in kaggle	Sunday	commit first try
5 problems on ACM	Friday	
Machine Learning and having it Deep and Structured(2017)	Wedensday	two class

## Long-term perspective

Work	deadline	now
RSATree Project	9.15	read SAT
learn pytorch	10.01	a new plan and has no decision yet
